Categories: Red Category

FYI, These are the memos I received from the four firms with lists of potential transit options. I consolidated these in the ppt slides I presented at the first Mayor's Task Force Meeting and put them in a table for reference in that folder.

I forwarded this information to Matt Benjamin in case anything is useful for the Mobility Plan, especially gondolas which the Fehr & Peers memo includes photos and one other firm includes some summary information.

No need to keep this email as the memos are in the Transit Option Task Force electronic folder.

Matt,

Attached are memos with transit options. They might include some information (i.e., gondolas) appropriate for the Mobility Plan.

I have also included your list so you can keep this information together and since your memo includes photos.
